Starting a New Instance of Adobe Acrobat

Using the “Start New Instance of Acrobat” icon will allow you to launch multiple instances of Acrobat and spread those instances across multiple monitors (applies only to Adobe Acrobat 8 Users)

1. Starting a New Instance of Adobe Acrobat Version 8.0
   a. Select “Acrobat Preferences” in TTC Tools
b. Under “Document” categories select the first check box, “Show each document in its own window”. This will allow you to launch multiple instances of Adobe Acrobat and spread them across multiple monitors.
